About the Author Sean-Philip Oriyano, CEH, CISSP, is an IT veteran with experience in the aerospace, defense, and cybersecurity industries. He has consulted and instructed on topics across the IT and cybersecurity fields for both small clients and large enterprises, and has taught at such locations as the U.S. Air Force Academy and the U.S. Naval War College. Sean is a member of the California State Military Reserve, where he serves as a warrant officer specializing in networking and security.

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. A lot of helpful information written in a fairly easy to understand style but also a lot of mistakes By S. Cottrill This book contained a lot of helpful information written in a fairly easy to understand style, but sadly, I couldn't always trust the results in the review questions as being accurate as some were clearly wrong - which hinders exam preparation. Some of the command line exercises were also incorrect and therefore unhelpful. 1 of 1 people found the following review helpful. Not that great By TheBSDKing This book will not help you pass the exam, but its a starting point and a good reference. During your study, just visit this book when you may be confused on a topic. Great start but not everything 0 of 0 people found the following review helpful. A must to have By Yitzhak Y'rush'lme Excellent source of information to prepare for the exam book is well worth the money invested in your future Stop smoking and prepare for a brighter future See all 39 customer reviews...
