I am studying the book myself in order to be a better mentor to them and help them test with confidence By Amazon Customer It was interesting that since I took NCLEX in 1991, how different the nursing strategies are. No longer is reality and logic the norm, more rules. I ordered this book as I work at a facility where the nursing students are having difficulty passing NCLEX. I am studying the book myself in order to be a better mentor to them and help them test with confidence. 1 of 1 people found the following review helpful. like psych, surgical etc shipped By Janice Only wish it was divided into different sections, like psych, surgical etc shipped quickly 1 of 1 people found the following review helpful. Three Stars By leizel ledbury Great practice book but I wish there were more questions. See all 17 customer reviews...
